For the chemical washes we use the green products (Low impact on the eco-toxicological profile, all the chemical products follow the REACH legislation and ZDHC)

Regarding the ecowash we have a *reduction of:*

- operation time: ± 49%
- electric energy consumption: ± 55%
- water consumption: ± 84%

Regarding the green wash we have a *reduction of:*

- electric energy consumption: ± 32%
- water consumption: ± 44%
